## PERSONAL.

Via Culbertson is in from the Sapello.

J. A. Mahoney came up from yesterday.

C. H. Curtis came in from Hanover yesterday.

Sim Holstein returned to his ranch yesterday.

Mrs. Thos. Foster is at the Hudson hot springs.

Mrs. J. H. Mudge is visiting relatives in Alton, Kansas.

Capt. James was over from Fort Bayard last Sunday.

W. C. Culbertson came in from the Sapello last Thursday.

District Clerk Walton went down to Deming last Thursday.

Hon. D. P. Carr is slowly recovering from an attack of malarial fever.

Baxter Busby is spending a few days at the Holstein ranch on the Mimbres.

Mr. and Mrs. Geo. W. Miles returned to their home in Rincon this morning.

Capt. Mammal and Frank Graham, of Mogollon, have been in town several days.

Joe Williams came down from Pinos Altos last Thursday to "smile" upon his numerous friends.

S. P. Carpenter was laid up in town last week for several nights, suffering severely from asthma.

Mrs. Dr. Owen, Miss Mulford and Miss Chalmers, of Fort Bayard, paid this office a pleasant call yesterday.

Dr. J. W. Davenport, a former resident of Grant County, arrived from Tyler, Texas, last night.

Conductor McHugh, it is reported has suffered a relapse of his illness and his life is now jeopardized by his friends.

James Kinneer, of Deming, will hold forth at Porterfield's drug store during the absence of Mr. Porterfield in the east.

Chas. Fox and wife were down from Pinos Altos last Sunday with their little daughter for medical treatment. She is suffering from an attack of malarial fever.

Miss Josie Whitehill went down to Deming last Thursday, where she will visit for a few days. She will also visit Cook's Peak and the Whitehill ranch before returning.

P. J. Bennett, a former proprietor of the Southwest Sentinel, now editor of the Sierra County Chronicle, is spending a few days among his numerous old-time friends in this city. He is a welcome visitor.

Mr. James Upton, the attentive and painstaking member of the County commission, from the Upper Mimbres, left for his home on Wednesday, after a three days' stay in town. He returned on Saturday.

Misses Chandler and Love, the former from St. Louis, and the latter from Carlsbad, Mo., who have been the guests of T. P. Chandler for several weeks, returned to their homes yesterday morning. During their visit here they acquired the admiration of all who were favored with their acquaintance.

Mr. and Mrs. W. C. Porterfield will leave for the east to-morrow morning. They will go to Denver and from thence to Pueblo where they will meet the Knights Templar excursion train for Boston. The train will touch many of the notable points between the two oceans, prominent among which is Niagara Falls. After the R. T. conclude they will visit some of the popular eastern resorts, after which they will return to southern Illinois, the homes of their parents. Mr. Porterfield will be absent about six weeks, while Mrs. Porterfield and the boys will probably not return before about the first of December.

Little Lillian Sheridan had an experience on her wheel one day last week which might have resulted more serious when she was riding up Bullard street. She was met by a wagon loaded with brick. She turned to the right to avoid an accident, when one of the horses, which was a bronco, took fright, and instead of turning away, threw its force against its mate with the result that Miss Lillian was run over by both team and wagon. Had the wheels of the wagon passed over her body, death would have no doubt resulted, but fortunately she passed between the wheels and escaped with a few bruises.

Sheriff Shannon returned from the scene of the murder of A. J. Smith, near Soper, last Saturday. The murder was committed several days ago, and some time must have elapsed after the killing before the public became aware of it, as the body was in an advanced stage of decomposition when discovered. An ax was used as the implement with which to execute the terrible deed. The murderer is believed to be a mulatto who was last seen in company with the murdered man, and who is now believed to be hiding in Mexico. Sheriff Shannon could get no definite clue to the whereabouts of the murderer or particulars of his crime.

The Broadway Changes Hands.

Aaron Schuts has bought the Broadway hotel of Mrs. Julia Black, and will at once begin repairing the same. The lower story will be devoted to three store rooms, and hotel offices. The second story will be used for hotel purposes. All the walls and partitions will be rebuilt of brick, and very many desirable improvements made. We will make more extended mention of the matter later.

Blind.

In Silver City, Saturday evening, Aug. 10th, 1935, Sim Holstein Miles, infant son of Mr. and Mrs. G. W. Miles, aged seventeen months.

The taking away of this sweet, innocent life is indeed sad. Little Sim was an only child, and his devoted parents had, through their love, allowed almost their very existence to center in him. He died of a disease common to children at his age, and while all the medical skill and tender nursing were employed to save him the cruel, icy hand of death defied them all, and bore away his tender prey. Mr. and Mrs. Miles have the unfettered sympathy of the entire community in this their hour of grief.

## Mining and Milling.

Bar silver.....0.054

Lead.....3.37 1/2

Copper.....11.02 1/2

Sapp & Hannen, of the Paschal Copper Company made a shipment of high grade copper ore last week. The wagon route from the mines to the railroad station has been so bad since the beginning of the rainy season that it has been almost impossible to deliver ore to the shipping points. They will make no more shipments until the rainy season is over. They will, however, continue to work their mines in a small way until such time as they can repair the route permanently.

Capt. Markley came up from Deming last Saturday, where he had been with a 15 1/2 ton shipment of ore from the Texas mine at Central. He had three grades, the first of which was 3 1/2 tons which ran 29 1/2 ounces in silver and 95-100 ounces in gold; the second lot of 9 1/2 tons, ran 29 1/2 ounces in silver and 75-100 ounces in gold; the third lot of 2 tons, ran 199 ounces in silver and 80-100 ounces in gold.

The Ivanhoe smelter is treating the tailings from the Pacific mill with good results.

The Brookman-Crawford mill at White Signal was started up yesterday. There are several hundred tons of ore ready for treatment and as soon as this is disposed of arrangements will be made for putting a large force of men at work in the mines.

From a Ministerial Point of View.

In his sermon, on Sunday before last, on "Good and Bad Foundations in Time of Flood," Rev. Edward S. Cross, of the Episcopal church, after adverting to our late calamity, considered a variety of sandy and shaky foundations, religious, moral and political. In matters of religion he spoke of the empty and hollow religiousness—self-deceiving rather than wilfully hypocritical—which abounds in the churches, and was also found out of them;—this false religiousness being manifested in cant and conventionality, in sentimentality and in excessive devotion to ceremony. He spoke of the elaborate systems of theology, based on sandy foundations; instancing Calvinism—that Bastille of the human heart and mind—which had already fallen, and over whose ruins (like the merry Frenchmen who danced on the ruins of their overthrown Bastille), the Christian heart danced in joy.

He also spoke of the sandy foundation on which they built who founded their faith on the letter of Scripture, rather than its spirit; insisting as vehemently on a vast mass of minute historical details in the Old Testament, as on the divine life of Christ Himself, which, like the sun in the heavens, proved itself, apart from this or that theory of inspiration; so that we may smile at the criticisms—true or false, it matters little—of Ingersoll on Moses.

Passing from theology to New Mexico, with its evil-doers in public life, he indicated that the righteous indignation, which should be a flood, was not even a stream, nor yet a sluggish acquiescence, but rather an arroyo, with a few trickling drops after a shower! He spoke of the large number of habitual gamblers, (professional), or "amateurs," among our public men; and he characterized gambling as the vice of New Mexico. He suggested that our young ladies could do a world of good, if recognizing the advantage given them by the fact that they are fewer in number and superior in quality, they would demand a higher moral standard of the young men of their acquaintance.

In conclusion, he spoke of the foundations of the manhood and the womanhood of the coming generation. Among other matters, he alluded to the sad and dreadful spectacle of very young men or even boys, beginning a career of dissipation, sometimes even by petty gambling in private before visiting the saloons. He spoke of their imitating the vices of the fathers of some of them, who, not content with the perdition of their own souls, seemed to desire, by their example, to effect the ruin of the souls and bodies of their sons, also. He ended by urging young men to found, before it was too late, the superstructure of their manhood on the rock of Christ's truth, and of Christian duty, instead of on the flood-swept sands of wayward inclination and self-deceiving will.

Address to Young Men.

The Rev. Prof. Selby will deliver a sermon on the above subject, at the Episcopal church next Sunday evening at 8 o'clock.

The Silver City & Northern Opened.

The Silver City & Northern railroad, which was so seriously damaged by recent floods, has been partially restored, and we are pleased to say, as the following letter from Superintendent Curtis will show:

HANOVER, N. M., Aug. 6, '35.

ED. SOUTHWEST SENTINEL:

Dear Sir:—This is to advise you that that S. C. & N. R. will be in operation between Whitewater and San Jose (15 miles) on and after the 8th inst. Line between San Jose and Hanover remains closed for the present, as I advised you would be the case. Yours,

C. H. CURTIS.

Card of Thanks.

We take this means of extending our sincere thanks and profound gratitude to the many friends for their aid and sympathy in our late bereavement.

Geo. W. Miles.

FANNIE E. MILES.

The Timmer House all Right.

In view of the fact that the report has become current that the walls and foundation of the Timmer House had been rendered unsafe because of the encroachment of the recent floods, we, the undersigned, as experts, were asked to make an examination of the premises, and are prepared to state that after having thoroughly examined the same in every detail, that we find all the foundations, walls and partitions in perfectly safe condition.

LAURENCE E. GRABER.

ROBERT BLACK.

Silver City, N. M., July 5, 1935.

## Weekly Weather Crop Bulletin.

Week ending August 5.

The temperature for the week has averaged slightly cooler than normal while the precipitation was about normal and evenly distributed.

The maximum temperature reported during the week was 93 degrees in the extreme southern portion and the minimum forty eight degrees in the north-east.

In some sections hay and alfalfa were damaged by excessive rainfall, while in others the weather has been exceptionally fine for during and harvesting the crop.

Large quantities of fruit, such as pears, apples, plums, apricots, berries, etc., are being placed on sale and shipped out.

Wheat, oats and barley were slightly damaged in some sections, but in general all cereals have made steady advancement.

The ranges and range cattle continue in prime condition, and taken as a whole the week has been all that could be desired.

The following extracts taken from reports received at this office are of interest:

Albuquerque—The maximum temperature for the week was 91 degrees and the minimum 60 degrees. A couple of showers during the week here were beneficial to all crops.

Alma—Splendid rains during all the week, and the grass on the ranges well started. Some heavy thunder storms occurred near here,
